

## **GOLF SWING TRAINING TEMPLATE**

### **ABSTRACT OF THE DISCLOSURE**

5 The present invention comprises a golf swing training device having a graphic design that illustrates a plurality of golf swing variables, including a club path indicator and a club face angle guide. The template is designed so that golfers may practice swinging a golf club over the top of the template to determine whether their swing follows a desired path. A swing reference guide is included and correlates shot selection, ball path, club path, and club face angle.
